## How to use the Ring Sizer?

### 1. Print the Ring Sizer as follows:

Make sure that your printer does not adjust the size to scale. Select "none" or ensure that the "Scale to Paper Size" box is not ticked.

### 2. Check that the Ring Sizer is accurate by measuring the scale at the top of the page.

It should measure 2 centimetres. 

### 3. Define your finger size

To define your size, choose a ring (a simple ring such as a wedding ring is best) that you already wear on the finger where you wish to wear the ring to be purchased.

Place this ring on the circles until you find the matching size. The diameter of the circle should be an exact match for the inside diameter of your ring. The line should be visible.

If your ring falls between two sizes, always choose the largest.

46 1,46 cm	47 1,50 cm	48 1,53 cm	49 1,56 cm	50 1,59 cm
51 1,62 cm	52 1,66 cm	53 1,69 cm	54 1,72 cm	55 1,75 cm
56 1,78 cm	57 1,81 cm	58 1,85 cm	59 1,88 cm	60 1,91 cm
61 1,94 cm	62 1,97 cm	63 2,01 cm	64 2,04 cm	65 2,07 cm
66 2,10 cm	67 2,13 cm	68 2,16 cm	69 2,20 cm	70 2,23 cm
